

*Incoming Third Graders:
Summer Assignments*

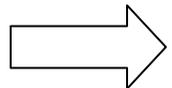

We have heard your children have completed the second grade with flying colors! We are looking forward to meeting this group of enthusiastic learners! The families and students at Cardinal Pacelli are absolutely wonderful people to work with everyday! We would like to encourage each child to make a visit to the public library during the summer.

*Students entering third grade are asked to read a minimum of 2 books during the summer. **They will need to read at least 1 fiction and 1 non-fiction book.** Please have your child complete **one** of the activities from the list on the backside of this sheet, for the first day of school. We will display these projects in the classroom during the first week of school. We know the children will be excited to share their projects with one another.*

We hope your summer is one filled with happy memories with family and good friends. We are excited to meet a new batch of third graders in August!

Sincere thanks,

Mrs. Goedde and Mrs. Unger

Activity Options (Pick One)

1. Describe the main character of the story in at least one paragraph. (5 sentences) Then draw and color a picture of that character below the paragraph.
2. Would you recommend this book to a friend? Write a paragraph recommendation for the book. (at least 5 sentences)
3. Beginning-Middle-End. Fold a paper into thirds and tell how the story begins, what happens in the middle, and how it ends. (at least 3 sentences in each section) Draw and color pictures for each part of the story. Please use white computer paper or cardstock.
4. Come up with a different ending for the story and write it. (at least 1 paragraph)

**** Use your best handwriting or you may type your work. Remember capital letters and punctuation. If you are doing art, please make sure to be neat and color in your drawings. Neatness will be included in the grading of the assignment.****

Detach the bottom portion of this page and attach to your assignment.

Summer Math Assignment for Incoming Third Graders

If you didn't order Summer Solutions before the school ordering deadline, please be sure to go online to www.summersolutions.net to order:

- Level 2 Original Mathematics

Please have the entire workbook, 30 lessons, completed and turn in on the first day of school.

In addition to the Summer Solutions workbook, please practice your math facts (addition and subtraction). To practice you can use flashcards, XtraMath, or online games and applications. It is **EXTREMELY** important to have these facts **mastered** before we start multiplication and division. You can begin studying multiplication and division facts also. There will be timed quizzes throughout the year.
