

# Summer Assignments

---

Dear First Grade Parents,

Happy summer! Every child will need to complete the Math Summer Solutions Level 1 Book (unless you received Summer Bridges through the Title I Program), and choose **either** option 1 or 2 below. Your child is responsible for two summer assignments; Math Summer Solutions or Summer Bridge and one of the reading options listed below. It is very important that your child completes these assignments over the summer break to reinforce the skills taught in school, and to prepare your child for a smooth transition into the second grade. We look forward to meeting all of you in August and hope that you have a fabulous summer!

Thank you,

Jenny Scheidler and Jamie Schwendeman
