"Draw Like a Ninja!"

Pick someone in your family to draw, only SHHHH! DON'T TELL THEM! Grab some paper or a sketchbook, curl up in a comfy chair, and draw someone in your family while they are doing something, but do it secretly! Draw someone working in the kitchen, sitting at a computer, reading, watching tv, outside, or even while they are taking a nap! Draw everything you see around them – AND what they are doing.

When you're done drawing all of the details you possibly can, consider adding some shadows or colors to your drawing. Take a good look and see if you are ready to surprise your secret subject with their portrait!

Save your drawing and bring back to school, or take a photo and email to Ms. Rogenski.
