#### **FlipBook Challenge!**

Create a basic flipbook using the video link above to learn the process. You can use a post-it note stack or whatever you have to learn.

Once you learn the basics, try a more complex idea of your own! Your final flipbook should use art and design to tell a story.

Here's another link for making flipbooks that might help even more...

#### **How to Make a Flipbook**

Save your flip book to turn in when you return to school, OR create a video of your book in action and share with Ms. Rogenski.

Have fun!
